ctrl click in the workspace to open the quick-add dialog

The screenshot shows the Node-RED web interface in a browser. The main workspace, titled 'Flow 1', contains a flow with two nodes: an 'inject' node (blue) with the text 'Hello Node-RED!' and a 'debug' node (green) labeled 'msg.payload'. A curved line connects the output of the inject node to the input of the debug node. On the left, a sidebar lists various nodes under 'common' and 'function' categories. On the right, an 'Info' sidebar shows the current flow's ID as 'a5669ae5a8de3ef8'. At the top right, there is a 'Deploy' button and a browser address bar with the URL 'node-red-btzcw-2022-11-05.au-syd.mybluemix.net/red/#flow/a5669ae5a8de3ef8'.
